Cloud Delivery Solutions***

Benefits

Assists Medical Personnel (Doctors, Nurses, Attendants) in Establishing:

- ▶ Patient's physical status
- ▶ Priority of responses to patients
- ▶ Critical situations

Reduces Patient Anxieties by Giving Patients the Ability to View Medical Personnel Responding to Their Nurse Call Requests on Their In-Room Screen Which Provides an:

- ▶ Enhanced sense of care
- ▶ Enhanced sense of in-room security

Access to Visual Communication Provides Valuable Information to Medical Staff and Hospital Administrators to Help Reduce:

- ▶ Hospital liabilities
- ▶ Potential insurance claims

Privacy Features

Integrated Features & Processes are Designed to Ensure Compliance to HIPAA and Canadian Privacy Laws:

- ▶ Camera activation can only be initiated by the patient from the patient room via an electronic video on/off switch located on the bedside Touchscreen TV Terminal or integrated into a pillow speaker empowering the patient to consent to or bypass the transmission of video
- ▶ Easily accessible mechanical sliding shutter on the Touchscreen TV Terminal that can block the view of the camera at any time ensuring the patient's consent and privacy
- ▶ An automated watchdog application reporting privacy breaches
- ▶ Consent form provided to patients upon admission to hospital

Additional Features

Features for Hospital Grade LCDs:

- ▶ Diagnostic management system automatically activated when a patient initiates video communication via the Nurse Call system which analyzes the quality of every PatientCam image and reports any anomalies or failures ensuring all PatientCams are maintained and operating at peak efficiency on a 24/7/365 basis
- ▶ Discreet embedded camera on screen frame of 15.5" or 18.5" Hospital Grade Touchscreen TV Terminal with LED strip to enhance picture quality in low light conditions

Ideal Patient Types

The PatientCam™ System is Ideal for Medical Personnel Caring for:

- ▶ Confused
- ▶ Agitated
- ▶ Geriatric
- ▶ Psychiatric
- ▶ Children
- ▶ ICU Patients

Institutions

The PatientCam™ System is Ideal for Multiple Environments:

- ▶ Hospitals
- ▶ Clinics
- ▶ Nursing homes
- ▶ Residences

**Subject to existing Nurse Call System compatibility.
